

Oscar Ani
CID: 02390378
Year 1

12 July 2024

Dear Oscar,

DEFERRED RESULT

I am sorry to inform you that you have not yet achieved a clear pass in Year 1 and that a decision on your result has been deferred until September of this year. I am writing to inform you on what is required from you before you can proceed to Year 2.

You failed (or were absent from a major assessment of) the following module(s) and are offered the opportunity to attend resit / reassessment of the subject(s):

Resit(s) / Reassessment(s) Required:

AERO40009 Thermodynamics and Heat Transfer (Capped)

("capped" means that should you pass the module(s) following a resit, the module mark will be capped at "pass", i.e. 40% or 50% for level 7 modules.)

The resit timetable will be released soon on the student portal:

<https://imperiallondon.sharepoint.com/sites/foe/aero/student-portal/SitePages/Examinations.aspx>. You will be notified as soon as the timetable is released.

To progress to year 2 you must pass **all** the modules you have been offered a re-assessment opportunity for. All resit exams will take place on campus under invigilated conditions, consistent with the summer exams that were done previously in this year.

We realise that this might be a stressful time for you, and if you wish to have support inside the Department, we suggest that you contact the Senior Tutor, aero.seniortutor@imperial.ac.uk. If you wish to have support outside the Department, you can initially contact the Faculty of Engineering Senior Tutor, Dr Lorraine Craig, l.craig@imperial.ac.uk.

Please confirm in writing (via email) to ae.office@imperial.ac.uk as soon as possible that:

1. you have received this letter
2. you intend to satisfy the requirements outlined above

Yours sincerely

Dr Andrew Wynn

Additional Information

- Appeals against exam board decisions are not to be sent to the Department but to Registry within 15 working days of results being released on student e-service. Full details can be found at <http://www.imperial.ac.uk/student-records-and-data/for-current-students/undergraduate-and-taught-postgraduate/exams-assessments-and-regulations/appeals/>
